Marketplace Declaration Guidance — Amazon KDP

Based on this batch, the KDP publishing questionnaire answers would be: AI-generated content: YES. Images: 2 AI-generated image asset(s). Text: 1 disclosed AI-generated text section(s).

Guidance derived from scan results and publisher disclosures; KDP distinguishes AI-generated from AI-assisted (human-created with AI tools) — review each asset's role before submitting. This is not legal advice.

Human-Origin Attestations

team_photo.jpg — attested by Joana Martins on 2026-08-14

"I attest that this asset is of human origin and was not generated or substantially altered by an AI system."

Cryptographic Signature Proof

Remediated assets in this batch carry C2PA v1 manifests signed with the certificate issued to: Nexus Creative Content Credentials (BYOC demo certificate). Manifests assert IPTC digitalSourceType "trainedAlgorithmicMedia" and are RFC 3161 timestamped. Verify any asset independently at verify.contentauthenticity.org.
